

District Wide Meeting

Questions generated from Tustumena Site Council Meeting, October 17, 2017

Can the tech budget be redone in a way that allows more site level control? Current policy allows for only 50% computer replacement every 3 years. Does not allow for or plan for local infrastructure issues or classroom tools such as Smartboard replacement.

How much do we spend on curriculum support materials vs. buying workbooks?

Can we change to ebooks at more grade levels?

Ebooks vs more computers? What is the real savings?

What are the expectations of Personalized learning and the support of technology?

Inservice days, can we not have classified employees come?

How much, per day, would we save by cutting days before school starts?
